### **Form ADV Part 2A – Firm Brochure**

Dated: April 27, 2026

This Brochure provides information about the qualifications and business practices of 49th Parallel Wealth Management, LLC. If you have any questions about the contents of this Brochure, please contact us at (480) 520-7770. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

49th Parallel Wealth Management, LLC is a registered investment adviser. Registration does not imply a certain level of skill or training.

Additional information about 49th Parallel Wealth Management, LLC also is available on the SEC's website at [www.adviserinfo.sec.gov](http://www.adviserinfo.sec.gov), which can be found using the firm's identification number, 332829.

## Item 2: Material Changes

On March 31, 2026, we filed our annual updating amendment for fiscal year end 2025. We made the following material changes:

- We updated our services and fees. Please see Items 4 and 5 for more information.
- We added a financial industry affiliation. Please see Item 10 for more information.

Any material changes made throughout the year will be reported here.

From time to time, we may amend this Brochure to reflect changes in our business practices, changes in regulations, and routine annual updates as required by securities regulators. Either this complete Brochure or a Summary of Material Changes shall be provided to each Client annually and if a material change occurs in the business practices of 49th Parallel Wealth Management, LLC.

## Item 4: Advisory Business

### **Description of Advisory Firm**

49th Parallel Wealth Management, LLC is an Investment Adviser principally located in the state of Arizona. We are a limited liability company founded in July 2024. 49th Parallel Wealth Management, LLC became registered in 2024. Lucas Wennersten, Member and Chief Compliance Officer (“CCO”), and Shakorah Wennersten, Member, are the principal owners of the firm.

As used in this brochure, the words “49th Parallel Wealth Management”, “we”, “our firm”, “Advisor” and “us” refer to 49th Parallel Wealth Management, LLC and the words “you”, “your” and “Client” refer to you as either a client or prospective client of our firm.

### **Types of Advisory Services**

49th Parallel Wealth Management is a fee-only firm, meaning the only compensation we receive is from our Clients for our services. We offer investment management and financial planning services. From time to time, 49th Parallel Wealth Management recommends third-party professionals such as attorneys, accountants, tax advisors, insurance agents, or other financial professionals. Clients are never obligated to utilize any third-party professional we recommend. 49th Parallel Wealth Management is not affiliated with nor does 49th Parallel Wealth Management receive any compensation from third-party professionals we may recommend.

### **Investment Management Services**

Our firm provides continuous advice to a Client regarding the investment of Client funds based on the individual needs of the Client. Through personal discussions in which goals and objectives based on a Client's particular circumstances are established, we develop a Client's personal investment policy or an investment plan with an asset allocation target and create and manage a portfolio based on that policy and allocation targets. We will also review and discuss a Client's prior investment history, as well as family composition and background. Account supervision is guided by the stated objectives of the Client (e.g., maximum capital appreciation, growth, income, or growth, and income), as well as risk tolerance and tax considerations.

We primarily advise our Clients regarding investments in stocks, bonds, mutual funds, ETFs, U.S. government and municipal securities, and cash and cash equivalents. We may also provide advice regarding investments held in Client's portfolio at the inception of our advisory relationship and/or other investment types not listed above, at the Client's request.

When we provide investment management services, Clients grant us limited authority to buy and sell securities on a discretionary basis or non-discretionary basis. More information on our trading authority is explained in Item 16 of this Brochure. Clients may impose reasonable restrictions in writing on investing in certain securities, types of securities, or industry sectors.

Clients who have at least \$1,000,000 in assets under management with us at the time of signing the Advisory Agreement will also receive ongoing financial planning services for that year. For Clients who have less than \$1,000,000 in assets under management with us, financial planning services are a separate fee. A Client will be taken through establishing their goals and values around money. Clients will be required to provide pertinent information to help complete the following areas of analysis: net worth, cash flow, insurance, credit scores/reports, employee benefits, retirement planning, insurance, investments, college planning, and estate planning. Once the Client's information is reviewed, their plan will be built and analyzed, and then the findings, analysis and potential changes to their current situation will be reviewed with the Client. Clients will

receive a detailed financial plan designed to help achieve Client's stated financial goals and objectives. The plan and the Client's financial situation and goals will be monitored throughout the year.

## **Financial Planning Services**

Financial planning involves an evaluation of a Client's current and future financial state by using currently known variables to predict future cash flows, asset values, and withdrawal plans. The key defining aspect of financial planning is that through the financial planning process, all questions, information, and analysis will be considered as they affect and are affected by the entire financial and life situation of the Client. Clients purchasing this service will receive a written report, providing the Client with a detailed financial plan designed to help achieve the Client's stated financial goals and objectives.

In general, the financial plan will address some or all of the following areas of concern. The Client and 49th Parallel Wealth Management will work together to select specific areas to cover. These areas may include, but are not limited to, the following:

- **Business Planning:** We provide consulting services for Clients who currently operate their own business, are considering starting a business, or are planning for an exit from their current business. Under this type of engagement, we work with you to assess your current situation, identify your objectives, and develop a plan aimed at achieving your goals.
- **Cash Flow and Debt Management:** We will conduct a review of your income and expenses to determine your current surplus or deficit along with advice on prioritizing how any surplus should be used or how to reduce expenses if they exceed your income. Advice may also be provided on which debts to pay off first based on factors such as the interest rate of the debt and any income tax ramifications. We may also recommend what we believe to be an appropriate cash reserve that should be considered for emergencies and other financial goals, along with a review of accounts (such as money market funds) for such reserves, plus strategies to save desired amounts.
- **College Savings:** Includes projecting the amount that will be needed to achieve college or other post-secondary education funding goals, along with advice on ways for you to save the desired amount. Recommendations as to savings strategies are included, and, if needed, we will review your financial picture as it relates to eligibility for financial aid or the best way to contribute to children and grandchildren (if appropriate).
- **Employee Benefits Optimization:** We will provide review and analysis as to whether you, as an employee, are taking the maximum advantage possible of your employee benefits. If you are a business owner, we will consider and/or recommend the various benefit programs that can be structured to meet both business and personal retirement goals.
- **Estate Planning:** This usually includes an analysis of your exposure to estate taxes and your current estate plan, which may include whether you have a will, powers of attorney, trusts, and other related documents. Our advice also typically includes ways for you to minimize or avoid future estate taxes by implementing appropriate estate planning strategies such as the use of applicable trusts. We always recommend that you consult with a qualified attorney when you initiate, update, or complete estate planning activities. We may provide you with contact information for attorneys who specialize in estate planning when you wish to hire an attorney for such purposes. From time-to-time, we will participate in meetings or phone calls between you and your attorney with your approval or request.
- **Financial Goals:** We will help Clients identify financial goals and develop a plan to reach them. We will identify what you plan to accomplish, what resources you will need to make it happen, how much time you will need to reach the goal, and how much you should budget for your goal.

- **Insurance:** Review of existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home, and automobile.
- **Investment Analysis:** This may involve developing an asset allocation strategy to meet Clients' financial goals and risk tolerance, providing information on investment vehicles and strategies, reviewing employee stock options, as well as assisting you in establishing your own investment account at a selected broker/dealer or custodian. The strategies and types of investments we may recommend are further discussed in Item 8 of this brochure.
- **Retirement Planning:** Our retirement planning services typically include projections of your likelihood of achieving your financial goals, typically focusing on financial independence as the primary objective. For situations where projections show less than the desired results, we may make recommendations, including those that may impact the original projections by adjusting certain variables (e.g., working longer, saving more, spending less, taking more risk with investments).

If you are near retirement or already retired, advice may be given on appropriate distribution strategies to minimize the likelihood of running out of money or having to adversely alter spending during your retirement years.

- **Risk Management:** A risk management review includes an analysis of your exposure to major risks that could have a significant adverse impact on your financial picture, such as premature death, disability, property and casualty losses, or the need for long-term care planning. Advice may be provided on ways to minimize such risks and about weighing the costs of purchasing insurance versus the benefits of doing so and, likewise, the potential cost of not purchasing insurance ("self-insuring").
- **Tax Preparation Assistance:** We also offer tax preparation services to assist with general information as it applies to reviews of existing plans, gathering information needed to provide outside firms in the creation of documents, and updating existing plans for clients. Advice may include ways to minimize current and future income taxes as a part of your overall financial planning picture. For example, we may make recommendations on which type of account(s) or specific investments should be owned based in part on their "tax efficiency," with the consideration that there is always a possibility of future changes to federal, state or local tax laws and rates that may impact your situation. The Client is responsible for the completeness and accuracy of information used to prepare the returns. Our responsibility is to prepare the returns in accordance with applicable tax laws.

Depending on the client's needs and desires for tax preparation and planning, document review, preparation, or updates, we will refer them to a recommended third-party accounting and tax planning firm for the preparation or filing of client's federal and state tax returns. We do not receive any compensation from third-parties for recommending their services to our clients. The fees associated with tax preparation services are separate and in addition to our advisory fees and are disclosed in Item 5.

Financial Planning Services are offered as a project-based service and is a limited scope one-time engagement. Project-Based Financial Planning is available for Clients looking to address specific questions or issues. The Client may choose from one or more of the above topics to cover or other areas as requested and agreed to by 49th Parallel Wealth Management. For Project-Based Financial Planning, the Client will be ultimately responsible for the implementation of the financial plan.

### **Client Tailored Services and Client Imposed Restrictions**

We tailor the delivery of our services to meet the individual needs of our Clients. We consult with Clients initially and on an ongoing basis, through the duration of their engagement with us, to determine risk tolerance, time horizon and other factors that may impact the Clients' investment and/or planning needs.

Clients are able to specify, within reason, any restrictions they would like to place as it pertains to individual securities and/or sectors that will be traded in their account. All such requests must be provided to 49th Parallel Wealth Management in writing. 49th Parallel Wealth Management will notify Clients if they are unable to accommodate any requests.

### **Wrap Fee Programs**

We do not participate in wrap fee programs.

### **Assets Under Management**

As of January 1, 2026, 49th Parallel Wealth Management has \$9,388,353 in discretionary and \$0 in non-discretionary assets under management.

## Item 5: Fees and Compensation

Please note, unless a Client has received this brochure at least 48 hours prior to signing an Advisory Contract, the Advisory Contract may be terminated by the Client within five (5) business days of signing the Advisory Contract without penalty or incurring any fees.

How we are paid depends on the type of advisory services we perform. Below is a brief description of our fees, however, you should review your executed Advisory Contract for more detailed information regarding the exact fees you will be paying. No increase to the agreed-upon advisory fees outlined in the Advisory Contract shall occur without prior written Client consent. Please note, lower fees for comparable services may be available from other sources.

### **Investment Management Services**

Fees for investment management services are based on a percentage of assets under management. Our minimum advisory fee is \$2,500. Clients who have at least \$1,000,000 in assets under management with us at the time of signing the Advisory Agreement are eligible for our comprehensive service, which includes investment management and financial planning on an ongoing basis. The exact fee will be listed within the Client agreement and is negotiable upon the Advisor's discretion.

The annual advisory fee for Investment Management only will follow the below fee schedule.

<b>Assets Under Management</b>	<b>Annual Advisory Fee</b>
<b>\$0 - \$500,000</b>	1.00%
<b>\$500,001 - \$1,000,000</b>	0.85%
<b>\$1,000,001 - \$3,000,000</b>	0.65%
<b>\$3,000,001 - \$5,000,000</b>	0.45%
<b>\$5,000,001 - \$10,000,000</b>	0.45% (Flat Rate)
<b>\$10,000,001 and Above</b>	Negotiable

The annual advisory fee for Investment Management with financial planning included will follow the below fee schedule.

<b>Assets Under Management</b>	<b>Annual Advisory Fee</b>
<b>\$0 - \$1,000,000</b>	1.00%
<b>\$1,000,001 - \$3,000,000</b>	0.75%
<b>\$3,000,001 - \$5,000,000</b>	0.50%
<b>\$5,000,001 - \$10,000,000</b>	0.50% (Flat Rate)
<b>\$10,000,001 and Above</b>	Negotiable

The annual advisory fee is paid monthly in advance based on the value of Client's account(s) as of the last day of the prior billing period.

For example, for assets under management of \$1,000,000, a Client would pay 1.00% on the first \$500,000 and 0.85% on the remaining balance. The monthly fee is determined by the following calculation:  $(\$500,000 \times 1.00\%) + (\$500,000 \times 0.85\%) \div 12 = \$5,354.17$ . For assets under management of \$2,000,000, a Client would pay 1.00% on the first \$1,000,000 and 0.75% on the remaining balance. The monthly fee is determined by the following calculation:  $(\$1,000,000 \times 1.00\%) + (\$1,000,000 \times 0.75\%) \div 12 = \$10,625$ .

In determining the advisory fee, we may allow accounts of members of the same household to be aggregated. 49th Parallel Wealth Management relies on the valuation as provided by Client's custodian in determining assets under management. Our advisory fee is prorated for any partial billing periods occurring during the engagement, including the initial and terminating billing periods. Clients may make additions or withdrawals from their account at any time; however, 49th Parallel Wealth Management reserves the right to adjust our advisory fees on a pro-rata basis on account of any such cash-flow transactions.

### **Project-Based Financial Planning**

49th Parallel Wealth Management charges either a fixed or hourly fee for Project-Based Financial Planning. Fixed fee rates are a minimum of \$1,500, not to exceed a maximum of \$60,000. Our hourly rate is \$399.

Our typical projects and fees are listed below:

- Personal Planning Consultation - \$399 (no corporate planning)
  - Includes:
    - Information gathering and question sharing 1-hour consultation
    - Recommendations checklist with explanations, and important: dates, forms, links, etc.
    - All recording and summary
    - Access for follow-up questions
- Corporate Structuring Memo - \$2,000+
- Targeted Financial Planning – \$3,000+ (Action Plan - written plan or projections)
- Comprehensive Financial Planning
  - \$5,000+ Projections in one country
  - \$6,000+ Projections in two countries

The fee range is dependent upon variables including the specific needs of the Client, complexity, estimated time, research, and resources required to provide services to you, among other factors we deem relevant. Fees are negotiable at the sole discretion of the Adviser and the final agreed upon fee will be outlined in your Advisory Contract. 49th Parallel Wealth Management may request a portion of the fee be collected in advance with the remainder due upon completion of the services. 49th Parallel Wealth Management will not bill an amount above \$500 more than 6 months or more in advance of rendering the services.

### **Tax Preparation Assistance Services**

The fees associated with tax preparation assistance services are separate and in addition to our advisory fees. Fees are fixed and may vary, depending on the complexity of tax preparation assistance needed. Our typical fees are listed below:

- US federal return including one state – \$500
- Canadian return - \$200 o Business income reporting - \$150+
- Rental income reporting - \$150+
- Additional State/Province return - \$150
- Nonresident T1 - \$300
- s.216 - \$300 o FBAR - \$150+
- Form 8938 - \$150+
- T1135 - \$100 - \$200+
- 8621 - \$100 - \$200+
- Roth Election - \$200

- Form 8833 - \$150+
- 3520/3520A - \$600+
- 5471 - \$600+
- GILTI/subpart F - Get quote
- 1120S - Get quote
- T2 - Get quote

Depending on the client's needs, we will refer them to a recommended third-party accounting and tax planning firm for the preparation or filing of client's federal and state tax returns. We do not receive any compensation from third-parties for recommending their services to our clients. Clients are free to choose any third-party accounting firm and are not required to enact on any recommendation made by the Advisor. If a third-party accounting or tax firm prepares or files any portion of a client's return(s), the client is responsible for fees payable to the third-party firm.

### **Fee Payment**

For Investment Management services, we deduct our advisory fee from one or more account(s) held at an unaffiliated third-party custodian, as directed by the Client. Please refer to Item 15 of this Brochure regarding our policy on direct fee deduction. Clients may also pay by electronic funds transfer (EFT) or check. We use an independent third party payment processor in which the Client can securely input their payment information to pay their fee. We do not have access to the Client's banking or credit information at any time. The Client will be provided with their own secure portal in order to make payments.

For Financial Planning services, fees are paid by electronic funds transfer (EFT) or check. We use an independent third party payment processor in which the Client can securely input their banking information and pay their fee. We do not have access to the Client's banking information at any time. The Client will be provided with their own secure portal in order to make payments.

### **Other Types of Fees and Expenses**

Our fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which may be incurred by the Client. Clients may incur certain charges imposed by custodians, brokers, and other third parties such as custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer, and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual fund and exchange-traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Such charges, fees, and commissions are exclusive of and in addition to our fee, and we shall not receive any portion of these commissions, fees, and costs.

Item 12 further describes the factors that we consider in selecting or recommending custodians for Client's transactions and determining the reasonableness of their compensation (e.g., commissions).

Clients may incur fees from third-party professionals such as accountants and attorneys that 49th Parallel Wealth Management may recommend, upon Client request. Such fees are separate and distinct from 49th Parallel Wealth Management's advisory fees.

### **Terminations and Refunds**

For Investment Management services, the Advisory Contract may be terminated with written notice 30 calendar days in advance. Upon termination of the Advisory Contract, a prorated refund will be provided to the Client.

For Project-Based Financial Planning services, this service is not an ongoing engagement, thus upon receipt of the final fees, the Advisory Contract will automatically be terminated. Clients may terminate at any time

provided written notice. If fees are paid in advance, a prorated refund will be given, if applicable, upon termination of the Advisory Contract for any unearned fee. For fees paid in arrears, Client shall be charged a pro-rata fee based upon the percentage of the work done up to the date of termination.

### **Sale of Securities or Other Investment Products**

Advisor and its supervised persons do not accept compensation for the sale of securities or other investment products including asset-based sales charges or service fees from the sale of mutual funds.

## Item 6: Performance-Based Fees and Side-By-Side Management

We do not offer performance-based fees and do not engage in side-by-side management.

## Item 7: Types of Clients

We provide financial planning and investment management services to individuals, high net-worth individuals, banking or thrift institutions, investment companies, business development companies, pool investment vehicles, pension and profit sharing plans, charitable organizations, corporations or other businesses, state or municipal government entities, and other investment advisers.

Our minimum account size requirement is \$250,000 to open or maintain an account under our management. We allow accounts of members of the same household to be aggregated to meet our minimum account size requirement. 49th Parallel Wealth Management may reduce or waive the minimum account size requirement on a case-by-case basis.

## Item 8: Methods of Analysis, Investment Strategies, and Risk of Loss

Below is a brief description of our methods of analysis and primary investment strategies.

### **Methods of Analysis**

**Fundamental analysis** involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience, and expertise of the company's management, and the outlook for the company's industry. The resulting data is used to measure the true value of the company's stock compared to the current market value. The risk of fundamental analysis is that the information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock's value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance.

**Technical analysis** involves using chart patterns, momentum, volume, and relative strength in an effort to pick sectors that may outperform market indices. However, there is no assurance of accurate forecasts or that trends will develop in the markets we follow. In the past, there have been periods without discernible trends and similar periods will presumably occur in the future. Even where major trends develop, outside factors like government intervention could potentially shorten them.

Furthermore, one limitation of technical analysis is that it requires price movement data, which can translate into price trends sufficient to dictate a market entry or exit decision. In a trendless or erratic market, a technical method may fail to identify trends requiring action. In addition, technical methods may overreact to minor price movements, establishing positions contrary to overall price trends, which may result in losses. Finally, a technical trading method may underperform other trading methods when fundamental factors dominate price moves within a given market.

**Cyclical analysis** is a type of technical analysis that involves evaluating recurring price patterns and trends based upon business cycles. Economic/business cycles may not be predictable and may have many fluctuations between long-term expansions and contractions. The lengths of economic cycles may be difficult to predict with accuracy and therefore the risk of cyclical analysis is the difficulty in predicting economic trends and consequently the changing value of securities that would be affected by these changing trends.

**Charting analysis** involves the gathering and processing of price and volume information for a particular security. This price and volume information is analyzed using mathematical equations. The resulting data is then applied to graphing charts, which is used to predict future price movements based on price patterns and trends. Charts may not accurately predict future price movements. Current prices of securities may not reflect all information about the security and day-to-day changes in market prices of securities may follow random patterns and may not be predictable with any reliable degree of accuracy.

### **Modern Portfolio Theory (MPT)**

The underlying principles of MPT are:

- Investors are risk averse. The only acceptable risk is that which is adequately compensated by an expected return. Risk and investment return are related and an increase in risk requires an increased expected return.
- Markets are efficient. The same market information is available to all investors at the same time. The market prices every security fairly based upon this equal availability of information.
- The design of the portfolio as a whole is more important than the selection of any particular security. The appropriate allocation of capital among asset classes will have far more influence on long-term portfolio performance than the selection of individual securities.
- Investing for the long-term (preferably longer than ten years) becomes critical to investment success because it allows the long-term characteristics of the asset classes to surface.

- Increasing diversification of the portfolio with lower correlated asset class positions can decrease portfolio risk. Correlation is the statistical term for the extent to which two asset classes move in tandem or opposition to one another.

**Mutual Fund and/or ETF Analysis:** We look at the experience and track record of the manager of the mutual fund or ETF in an attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic conditions. We also look at the underlying assets in a mutual fund or ETF in an attempt to determine if there is significant overlap in the underlying investments held in other funds in the Client's portfolio. In addition, we monitor the funds or ETFs in an attempt to determine if they are continuing to follow their stated investment strategy.

A risk of mutual fund and/or ETF analysis is that, as in all securities investments, past performance does not guarantee future results. A manager who has been successful may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in a fund or ETF, managers of different funds held by the client may purchase the same security, increasing the risk to the client if that security were to fall in value. There is also a risk that a manager may deviate from the stated investment mandate or strategy of the fund or ETF, which could make the fund or ETF less suitable for the Client's portfolio.

## **Investment Strategies**

### **Asset Allocation**

In implementing our Clients' investment strategy, we begin by attempting to identify an appropriate ratio of equities, fixed income, and cash (i.e. "asset allocation") suitable to the Client's investment goals and risk tolerance.

A risk of asset allocation is that the Client may not participate in sharp increases in a particular security, industry or market sector. Another risk is that the ratio of equities, fixed income, and cash will change over time due to stock and market movements and, if not corrected, will no longer be appropriate for the Client's goals. We attempt to closely monitor our asset allocation models and make changes periodically to keep in line with the target risk tolerance model.

### **Passive and Active Investment Management**

We may choose investment vehicles that are considered passive, active, or a combination of both styles.

Passive investing involves building portfolios that are composed of various distinct asset classes. The asset classes are weighted in a manner to achieve a desired relationship between correlation, risk and return. Funds that passively capture the returns of the desired asset classes are placed in the portfolio.

Active investing involves a single manager or managers who employ some method, strategy or technique to construct a portfolio that is intended to generate returns that are greater than the broader market or a designated benchmark. Actively managed funds are also designed to reduce volatility and risk.

We may engage in both passive and active investing in Client's portfolio. However, we strive to construct portfolios of funds and individual securities that we believe will have the greatest probability for achieving our Clients' personal financial goals with the least amount of volatility and risk rather than attempt to outperform an arbitrary index or benchmark.

Specific investment selections are based on a number of factors that we evaluate in order to select, what we believe to be, the highest quality funds or individual securities for our Clients. These factors include but are not limited to underlying holdings of funds, percentage weighting of holdings within funds, liquidity, tax efficiency, bid/ask spreads, and other smart/strategic beta factors. These factors may or may not result in

the lowest cost ETFs and mutual funds available when utilizing funds in a Client's portfolio, but we strive to keep internal fund expenses as low as possible.

### **Socially Responsible Investing**

We may utilize various socially conscious investment approaches if a Client desires. 49th Parallel Wealth Management may construct portfolios that utilize mutual funds, ETFs, or individual securities with the purpose of incorporating socially conscious principles into a Client's portfolio. These portfolios may sometimes also be customized to reflect the personal values of each individual, family, or organization. This allows our Clients to invest in a way that aligns with their values. 49th Parallel Wealth Management may rely on mutual funds and ETFs that incorporate Environmental, Social and Governance ("ESG") research as well as positive and negative screens related to specific business practices to determine the quality of an investment on values-based merits. Additionally, 49th Parallel Wealth Management may construct portfolios of individual securities in order to provide Clients with a greater degree of control over the socially conscious strategies they are utilizing. 49th Parallel Wealth Management relies on third-party research when constructing portfolios of individual securities with socially conscious considerations.

If you request your portfolio to be invested according to socially conscious principles, you should note that returns on investments of this type may be limited and because of this limitation you may not be able to be as well diversified among various asset classes. The number of publicly traded companies that meet socially conscious investment parameters is also limited, and due to this limitation, there is a probability of similarity or overlap of holdings, especially among socially conscious mutual funds or ETFs. Therefore, there could be a more pronounced positive or negative impact on a socially conscious portfolio, which could be more volatile than a fully diversified portfolio.

### **Long-term/Short-term purchases**

We purchase securities and generally hold them in the Client's account for a year or longer. Short-term purchases may be employed as appropriate when:

- We believe the securities to be currently undervalued, and/or
- We want exposure to a particular asset class over time, regardless of the current projection for this class.

A risk in a long-term purchase strategy is that by holding the security for this length of time, we may not take advantage of short-term gains that could be profitable to a client. Moreover, if our predictions are incorrect, a security may decline sharply in value before we make the decision to sell.

### **General Risks Involved**

**All investing strategies we offer involve risk and may result in a loss of your original investment which you should be prepared to bear.** Many of these risks apply equally to stocks, bonds, commodities, and any other investment or security. Material risks associated with our investment strategies are listed below.

**Market Risk:** Market risk involves the possibility that an investment's current market value will fall because of a general market decline, reducing the value of the investment regardless of the operational success of the issuer's operations or its financial condition.

**Strategy Risk:** The Adviser's investment strategies and/or investment techniques may not work as intended.

**Small and Medium Cap Company Risk:** Securities of companies with small and medium market capitalizations are often more volatile and less liquid than investments in larger companies. Small and medium cap companies may face a greater risk of business failure, which could increase the volatility of the Client's portfolio.

**Turnover Risk:** Actively managed mutual funds tend to have a higher turnover rate than passive funds. A high portfolio turnover would result in higher transaction costs and in higher taxes when shares are held in a taxable account. These factors may negatively affect the account's performance.

**Limited markets:** Certain securities may be less liquid (harder to sell or buy) and their prices may at times be more volatile than at other times. Under certain market conditions, we may be unable to sell or liquidate investments at prices we consider reasonable or favorable or find buyers at any price.

**Interest Rate Risk:** Bond (fixed income) prices generally fall when interest rates rise, and the value may fall below par value or the principal investment. The opposite is also generally true: bond prices generally rise when interest rates fall. In general, fixed income securities with longer maturities are more sensitive to these price changes. Most other investments are also sensitive to the level and direction of interest rates.

**Legal or Legislative Risk:** Legislative changes or Court rulings may impact the value of investments, or the securities' claim on the issuer's assets and finances.

**Inflation:** Inflation may erode the buying power of your investment portfolio, even if the dollar value of your investments remains the same.

**MPT Risk:** Market risk is that part of a security's risk that is common to all securities of the same general class (stocks and bonds) and thus cannot be eliminated by diversification.

### **Risks Associated with Securities**

Apart from the general risks outlined above which apply to all types of investments, specific securities may have other risks.

**Bank Obligations** including bonds and certificates of deposit may be vulnerable to setbacks or panics in the banking industry. Banks and other financial institutions are greatly affected by interest rates and may be adversely affected by downturns in the U.S. and foreign economies or changes in banking regulations.

**Commercial Paper** is, in most cases, an unsecured promissory note that is issued with a maturity of 270 days or less. Being unsecured the risk to the investor is that the issuer may default.

**Common stocks** may go up and down in price quite dramatically, and in the event of an issuer's bankruptcy or restructuring could lose all value. A slower-growth or recessionary economic environment could have an adverse effect on the price of all stocks.

**Corporate Bonds** are debt securities to borrow money. Generally, issuers pay investors periodic interest and repay the amount borrowed either periodically during the life of the security and/or at maturity. Alternatively, investors can purchase other debt securities, such as zero coupon bonds, which do not pay current interest, but rather are priced at a discount from their face values and their values accrete over time to face value at maturity. The market prices of debt securities fluctuate depending on factors such as interest rates, credit quality, and maturity. In general, market prices of debt securities decline when interest rates rise and increase when interest rates fall. The longer the time to a bond's maturity, the greater its interest rate risk.

**Exchange Traded Funds** prices may vary significantly from the Net Asset Value due to market conditions. Certain Exchange Traded Funds may not track underlying benchmarks as expected. ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above (premium) or below (discount) their net asset value and an ETF purchased at a premium may ultimately be sold at a discount; (ii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are delisted from the exchange, or the activation of market-wide "circuit breakers" (which are tied to

large decreases in stock prices) halts stock trading generally. The Adviser has no control over the risks taken by the underlying funds in which the Clients invest.

**Municipal Bonds** are debt obligations generally issued to obtain funds for various public purposes, including the construction of public facilities. Municipal bonds pay a lower rate of return than most other types of bonds. However, because of a municipal bond's tax-favored status, investors should compare the relative after-tax return to the after-tax return of other bonds, depending on the investor's tax bracket. Investing in municipal bonds carries the same general risks as investing in bonds in general. Those risks include interest rate risk, reinvestment risk, inflation risk, market risk, call or redemption risk, credit risk, and liquidity and valuation risk.

**Mutual Funds** When a Client invests in open-end mutual funds or ETFs, the Client indirectly bears its proportionate share of any fees and expenses payable directly by those funds. Therefore, the Client will incur higher expenses, many of which may be duplicative. In addition, the Client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives).

**Options and other derivatives** carry many unique risks, including time-sensitivity, and can result in the complete loss of principal. While covered call writing does provide a partial hedge to the stock against which the call is written, the hedge is limited to the amount of cash flow received when writing the option. When selling covered calls, there is a risk the underlying position may be called away at a price lower than the current market price.

## Item 9: Disciplinary Information

### **Criminal or Civil Actions**

Neither 49th Parallel Wealth Management nor its management persons have been involved in any criminal or civil action.

### **Administrative Enforcement Proceedings**

Neither 49th Parallel Wealth Management nor its management persons have been involved in any administrative enforcement proceedings.

### **Self-Regulatory Organization Enforcement Proceedings**

Neither 49th Parallel Wealth Management nor its management persons have been involved in any self-regulatory organization (SRO) proceedings.

## Item 10: Other Financial Industry Activities and Affiliations

### **Broker-Dealer Affiliation**

Neither 49th Parallel Wealth Management nor its management persons is registered, or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.

### **Other Affiliations**

Neither 49th Parallel Wealth Management nor its management persons is registered, or have an application pending to register, as a futures commission merchant, commodity pool operator, commodity trading advisor, or an associated person of the foregoing entities.

### **Related Persons**

Neither 49th Parallel Wealth Management nor its management persons have any relationship or arrangement with any outside financial industry related parties.

49th Parallel Wealth Management, LLC is affiliated with 49th Parallel Wealth Management ULC through common ownership and control by Lucas Wennersten. 49th Parallel Wealth Management ULC (NRD#81990) is a Portfolio Manager regulated by the British Columbia Securities Commission and other provincial regulators. 49th Parallel Wealth Management LLC and 49th Parallel Wealth Management ULC may provide advisory services to one or more common clients. Each entity maintains a separate agreement with each client outlining the services provided as well as the terms and payment structure negotiated. Due to the affiliation of the two entities, 49th Parallel Wealth Management LLC has an incentive to recommend the services of its affiliate over the services of nonaffiliated firms. As such, clients are informed that due to this arrangement, there is a conflict of interest. 49th Parallel Wealth Management LLC upholds its fiduciary duty and only recommends advisers that it believes will act in the client's best interest.

## Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

As a fiduciary, our firm has a duty of utmost good faith to act solely in the best interests of each Client. Our Clients entrust us with their funds and personal information, which in turn places a high standard on our conduct and integrity. Our fiduciary duty is a core aspect of our Code of Ethics and represents the expected basis of all of our dealings. The firm also adheres to the Code of Ethics and Professional Responsibility adopted by the CFP® Board of Standards Inc., and accepts the obligation not only to comply with the mandates and requirements of all applicable laws and regulations but also to take responsibility to act in an ethical and professionally responsible manner in all professional services and activities. Additionally, 49th Parallel Wealth Management requires adherence to its Insider Trading Policy, and the CFA Institute's Asset Manager Code of Professional Conduct and Code of Ethics and Standards of Professional Conduct.

### **Code of Ethics Description**

This Code of Ethics does not attempt to identify all possible conflicts of interest, and compliance with each of its specific provisions will not shield our firm or its access persons from liability for misconduct that violates a fiduciary duty to our Clients. A summary of the Code of Ethics' Principles is outlined below.

- Integrity - Access persons shall offer and provide professional services with integrity.
- Objectivity - Access persons shall be objective in providing professional services to Clients.
- Competence - Access persons shall provide services to Clients competently and maintain the necessary knowledge and skill to continue to do so in those areas in which they are engaged.
- Fairness - Access persons shall perform professional services in a manner that is fair and reasonable to Clients, principals, partners, and employers, and shall disclose conflict(s) of interest in providing such services.
- Confidentiality - Access persons shall not disclose confidential Client information without the specific consent of the Client unless in response to proper legal process, or as required by law.
- Professionalism - Access persons conduct in all matters shall reflect the credit of the profession.
- Diligence - Access persons shall act diligently in providing professional services.

We periodically review and amend our Code of Ethics to ensure that it remains current, and we require all firm access persons to attest to their understanding of and adherence to the Code of Ethics at least annually. Our firm will provide a copy of its Code of Ethics to any Client or prospective Client upon request.

### **Investment Recommendations Involving a Material Financial Interest and Conflicts of Interest**

Neither our firm, its access persons, or any related person is authorized to recommend to a Client or effect a transaction for a Client, involving any security in which our firm or a related person has a material financial interest, such as in the capacity as an underwriter, adviser to the issuer, principal transaction, among others.

### **Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest**

Our firm, its access persons, and its related persons may buy or sell securities similar to, or different from, those we recommend to Clients. In an effort to reduce or eliminate certain conflicts of interest, our Code of Ethics may require that we restrict or prohibit access persons' transactions in specific reportable securities. Any exceptions or trading pre-clearance must be approved by 49th Parallel Wealth Management's Chief Compliance Officer in advance of the transaction in an account. 49th Parallel Wealth Management maintains a copy of access persons' personal securities transactions as required.

### **Trading Securities At/Around the Same Time as Client's Securities**

From time to time our firm, its access persons, or its related persons may buy or sell securities for themselves at or around the same time as they buy or sell securities for Clients' account(s). To address this conflict, it is our policy that neither our firm or access persons shall have priority over Clients' accounts in the purchase or sale of securities.

## Item 12: Brokerage Practices

### **Factors Used to Select Custodians**

49th Parallel Wealth Management does not have any affiliation with any custodian we recommend. Specific custodian recommendations are made to the Client based on their need for such services. We recommend custodians based on the reputation and services provided by the firm.

In recommending custodians, we have an obligation to seek the “best execution” of transactions in Client accounts. The determinative factor in the analysis of best execution is not the lowest possible commission cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of the custodian’s services. The factors we consider when evaluating a custodian for best execution include, without limitation, the custodian’s:

- Combination of transaction execution services and asset custody services (generally without a separate fee for custody);
- Capability to execute, clear, and settle trades (buy and sell securities for your account);
- Capability to facilitate transfers and payments to and from accounts (wire transfers, check requests, bill payment, etc.);
- Breadth of available investment products (stocks, bonds, mutual funds, exchange-traded funds (ETFs), etc.);
- Availability of investment research and tools that assist us in making investment decisions;
- Quality of services;
- Competitiveness of the price of those services (commission rates, margin interest rates, other fees, etc.) and willingness to negotiate the prices;
- Reputation, financial strength, security and stability;
- Prior service to us and our clients.

With this in consideration, our firm recommends several custodians including Charles Schwab & Co., Inc. (“Schwab”) and National Financial Services, LLC, and Fidelity Brokerage Services, LLC (together with all affiliates, “Fidelity”), both independent and unaffiliated SEC registered broker-dealer firms and members of the Financial Industry Regulatory Authority (“FINRA”) and the Securities Investor Protection Corporation (“SIPC”). Additionally, we recommend Aviso Financial Inc., Aviso Correspondence Partners, and Credential Securities (together with all affiliates, “Aviso”) for our Canadian Clients.

### **Research and Other Soft-Dollar Benefits**

49th Parallel Wealth Management does not have any soft-dollar arrangements with custodians whereby soft-dollar credits, used to purchase products and services, are earned directly in proportion to the amount of commissions paid by a Client. However, as a result of being on their institutional platform, Schwab, Fidelity, Aviso and the alike may provide us with certain services and products that may benefit us. All such soft-dollar benefits are consistent with the safe harbor contained in Section 28(e) of the Securities Exchange Act of 1934, as amended.

### **Schwab**

Schwab Advisor Services™ is Schwab’s business serving independent investment advisory firms like us. They provide our Clients and us with access to their institutional brokerage services (trading, custody, reporting and related services), many of which are not typically available to Schwab retail customers. Schwab also makes available various support services. Some of those services help us manage or administer our Clients’ accounts, while others help us manage and grow our business. Schwab’s support services are generally available on an unsolicited basis (we don’t have to request them) and at no charge to us. The benefits received by Advisor or its personnel do not depend on the number of brokerage transactions directed to Schwab. As part of its fiduciary duties to Clients, Advisor at all times must put the interests of its Clients first.

Clients should be aware, however, that the receipt of economic benefits by Advisor or its related persons in and of itself creates a potential conflict of interest and may indirectly influence the Advisor's choice of Schwab for custody and brokerage services. This conflict of interest is mitigated as Advisor regularly reviews the factors used to select custodians to ensure our recommendation is appropriate. Following is a more detailed description of Schwab's support services:

1. **Services that benefit you.** Schwab's institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of Client assets. The investment products available through Schwab include some to which we might not otherwise have access or that would require a significantly higher minimum initial investment by our Clients. Schwab's services described in this paragraph generally benefit you and your account.
2. **Services that may not directly benefit you.** Schwab also makes available to us other products and services that benefit us but may not directly benefit you or your account. These products and services assist us in managing and administering our Clients' accounts. They include investment research, both Schwab's own and that of third parties. We may use this research to service all or a substantial number of our Clients' accounts, including accounts not maintained at Schwab. In addition to investment research, Schwab also makes available software and other technology that:
  - provide access to Client account data (such as duplicate trade confirmations and account statements)
  - facilitate trade execution and allocate aggregated trade orders for multiple Client accounts
  - provide pricing and other market data
  - facilitate payment of our fees from our Clients' accounts
  - assist with back-office functions, recordkeeping, and Client reporting
3. **Services that generally benefit only us.** Schwab also offers other services intended to help us manage and further develop our business enterprise. These services include:
  - Educational conferences and events
  - Consulting on technology, compliance, legal, and business needs
  - Publications and conferences on practice management and business succession
4. **Your brokerage and custody costs.** For our Clients' accounts that Schwab maintains, Schwab generally does not charge you separately for custody services but is compensated by charging you commissions or other fees on trades that it executes or that settle into your Schwab account. Certain trades (for example, many mutual funds and ETFs) may not incur Schwab commissions or transaction fees.

## **Fidelity**

49th Parallel Wealth Management has an arrangement with National Financial Services, LLC, and Fidelity Brokerage Services, LLC (together with all affiliates, "Fidelity") through which Fidelity provides 49th Parallel Wealth Management with Fidelity's "platform" services. The platform services include, among others, brokerage, custodial, administrative support, record keeping and related services that are intended to support intermediaries like 49th Parallel Wealth Management in conducting business and in serving the best interests of their clients, but that may benefit 49th Parallel Wealth Management .

1. **SERVICES THAT BENEFIT YOU.** Fidelity provides access to a range of investment products, execution of securities transactions, and custody of client assets through National Financial Services, LLC and Fidelity Brokerage, LLC. Also, Fidelity provides discount brokerage rates that are generally lower than retail investor rates. Fidelity services described in this paragraph generally benefit you and your account.
2. **SERVICES THAT MAY NOT DIRECTLY BENEFIT YOU.** Fidelity also makes available to us other products and services that benefit us, but may not directly benefit you or your account. These

products and services assist us in managing and administering our clients' accounts, such as software and technology that may:

- Assist with back-office functions, recordkeeping, and client reporting of our clients' accounts.
- Provide access to client account data (such as duplicate trade confirmations and account statements).
- Provide pricing and other market data.
- Assist with back-office functions, recordkeeping, and client reporting.
- Investment research.
- Access to Fidelity's trading desk for Advisors.
- Access to block trading.

3. **SERVICES THAT GENERALLY BENEFIT ONLY US.** By using Fidelity, we will be offered other services intended to help us manage and further develop our business enterprise. These services include:

- Educational conferences and events.
- Consulting on technology, compliance, legal, and business needs.
- Publications and conferences on practice management and business succession.
- Vendor discounts to purchase business services, such as consulting, marketing and branding, technology support and other similar business services.

4. **YOUR BROKERAGE AND CUSTODY COSTS.** Fidelity charges brokerage commissions and transaction fees for effecting certain securities transactions (i.e., transaction fees are charged for certain no-load mutual funds, commissions are charged for individual equity and debt securities transactions). Fidelity enables 49th Parallel Wealth Management to obtain many no-load mutual funds without transaction charges and other no-load funds at nominal transaction charges. Fidelity's commission rates are generally considered discounted from customary retail commission rates. However, the commissions and transaction fees charged by Fidelity may be higher or lower than those charged by other custodians.

As part of its fiduciary duties to clients, 49th Parallel Wealth Management endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by 49th Parallel Wealth Management or its related persons in and of itself creates a potential conflict of interest and may indirectly influence 49th Parallel Wealth Management's choice of Fidelity for custody and brokerage services.

### **Brokerage for Client Referrals**

We receive no referrals from a custodian, broker-dealer or third party in exchange for using that custodian, broker-dealer or third party.

### **Clients Directing Which Broker/Dealer/Custodian to Use**

Our firm recommends Clients establish account(s) at the aforementioned custodians to execute transactions through. We will assist with establishing your account(s) at the custodian, however, we will not have the authority to open accounts on the Client's behalf. Not all investment advisers require their Clients to use their recommended custodian. By recommending that Clients use certain custodians, we may be unable to achieve most favorable execution of Client transactions elsewhere, and this practice may cost Clients more money. We base our recommendations on the factors disclosed in Item 12 herein and will only recommend custodians if we believe it's in the best interest of the Client.

If Clients do not wish to utilize our recommended custodian, we permit Clients to direct brokerage. We will be added to your account through a limited trading authority. However, due to restraints from not having access to an institutional platform, we are unable to achieve most favorable execution of Client transactions. Clients directing brokerage may cost Clients more money. For example, in a directed brokerage account, the Client may pay higher brokerage commissions because we may not be able to aggregate orders to reduce

transaction costs, or the Client may receive a higher transaction price at their selected custodian versus our recommended custodian.

**Aggregating (Block) Trading for Multiple Client Accounts**

Generally, we combine multiple orders for shares of the same securities purchased for advisory accounts we manage (this practice is commonly referred to as “block trading”). We will then distribute a portion of the shares to participating accounts in a fair and equitable manner. The distribution of the shares purchased is typically proportionate to the size of the account, but it is not based on account performance or the amount or structure of management fees. Subject to our discretion, regarding particular circumstances and market conditions, when we combine orders, each participating account pays an average price per share for all transactions and pays a proportionate share of all transaction costs. Accounts owned by our firm or access persons may participate in block trading with your accounts; however, they will not be given preferential treatment.

## Item 13: Review of Accounts

### **Periodic Reviews**

Lucan Wennersten, CCO of 49th Parallel Wealth Management, will work with Clients to obtain current information regarding their assets and investment holdings and will review this information as part of our financial planning services. 49th Parallel Wealth Management does not provide specific reports to Clients, other than financial plans. Clients who engage us for investment management services will have their account(s) reviewed regularly on a quarterly basis by Lucas Wennersten. The account(s) are reviewed with regards to the Client's investment objectives and risk tolerance levels.

### **Triggers of Reviews**

Events that may trigger a special review would be unusual performance, addition or deletions of Client-imposed restrictions, excessive draw-down, volatility in performance, or buy and sell decisions from the firm or per Client's needs.

### **Review Reports**

Clients will receive trade confirmations from the custodian(s) for each transaction in their accounts as well as monthly or quarterly statements and annual tax reporting statements from their custodian showing all activity in the accounts, such as receipt of dividends and interest.

49th Parallel Wealth Management will provide written performance and/or holdings reports to Investment Management Clients on a quarterly basis. We urge Clients to compare these reports against the account statements they receive from their custodian.

## Item 14: Client Referrals and Other Compensation

### **Compensation Received by 49th Parallel Wealth Management, LLC**

49th Parallel Wealth Management is a fee-only firm that is compensated solely by its Clients. 49th Parallel Wealth Management does not receive commissions or other sales-related compensation. Except as mentioned in Item 12 above, we do not receive any economic benefit, directly or indirectly, from any third party for advice rendered to our Clients.

### **Client Referrals from Solicitors**

49th Parallel Wealth Management does not, directly or indirectly, compensate any person who is not advisory personnel for Client referrals.

## Item 15: Custody

49th Parallel Wealth Management does not hold, directly or indirectly, Client funds or securities, or have any authority to obtain possession of them. All Client assets are held at a qualified custodian.

If 49th Parallel Wealth Management deducts its advisory fee from Client's account(s), the following safeguards will be applied:

- i. The Client will provide written authorization to 49th Parallel Wealth Management, permitting us to be paid directly from Client's accounts held by the custodian.
- ii. The custodian will send at least quarterly statements to the Client showing all disbursements from the accounts, including the amount of the advisory fee.

In jurisdictions where required, 49th Parallel Wealth Management will send an itemized invoice to the Client at the same time it instructs the custodian to debit the advisory fee. Itemization includes the formula used to calculate the fee, the amount of assets under management the fee is based on, and the time period covered by the fee.

We urge you to carefully review custodial statements and compare them to the account invoices or reports that we may provide to you and notify us of any discrepancies. Clients are responsible for verifying the accuracy of these fees as listed on the custodian's brokerage statement as the custodian does not assume this responsibility. Our invoices or reports may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

## Item 16: Investment Discretion

For those Client accounts where we provide Investment Management Services, 49th Parallel Wealth Management has discretionary authority and limited power of attorney to determine the securities and the amount of securities to be bought or sold for a Client's account without having to obtain prior Client approval for each transaction. Investment discretion is explained to Clients in detail when an advisory relationship has commenced. At the start of the advisory relationship, the Client will execute a Limited Power of Attorney, which will grant our firm discretion over the account(s). Additionally, the discretionary relationship will be outlined in the Advisory Contract and signed by the Client. Clients may limit our discretion by requesting certain restrictions on investments. However, approval of such requests are at the firm's sole discretion.

If you enter into non-discretionary arrangements with our firm, we will obtain your approval prior to the execution of any transactions for your account(s). You have an unrestricted right to decline to implement any advice provided by our firm on a non-discretionary basis.

## Item 17: Voting Client Securities

We do not vote Client proxies. Therefore, Clients maintain exclusive responsibility for: (1) voting proxies, and (2) acting on corporate actions pertaining to the Client's investment assets. The Client shall instruct the Client's qualified custodian to forward to the Client copies of all proxies and shareholder communications relating to the Client's investment assets. If the Client has any questions on a particular proxy vote, they may contact us at the number listed on the cover of this brochure.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward you any electronic solicitation to vote proxies.

## Item 18: Financial Information

We have no financial commitment that impairs our ability to meet contractual and fiduciary commitments to our Clients, nor have we been the subject of any bankruptcy proceeding. We do not have custody of Client funds or securities, except as disclosed in Item 15 above, or require or solicit prepayment of more than \$500 in fees six months or more in advance.

## Item 19: Requirements for State-Registered Advisers

### **Principal Officers**

Lucas Wennersten serves as 49th Parallel Wealth Management's CCO. Information about Lucas Wennersten's education, business background, and outside business activities can be found in his ADV Part 2B, Brochure Supplement attached to this Brochure.

### **Outside Business**

All outside business information, if applicable, of 49th Parallel Wealth Management is disclosed in Item 10 of this Brochure.

### **Performance-Based Fees**

Neither 49th Parallel Wealth Management nor Mr. Wennersten is compensated by performance-based fees. Please refer to Item 6 of this brochure.

### **Material Disciplinary Disclosures**

No management person at 49th Parallel Wealth Management has ever been involved in an arbitration claim of any kind or been found liable in a civil, self-regulatory organization, or administrative proceeding.

### **Material Relationships That Management Persons Have With Issuers of Securities**

Neither 49th Parallel Wealth Management nor Mr. Wennersten have any relationship or arrangement with issuers of securities.

Dated: April 27, 2026

*For*

**Lucas Wennersten, CFA®, CFP®**

Member and Chief Compliance Officer

This brochure supplement provides information about Lucas Wennersten that supplements the 49th Parallel Wealth Management, LLC (“49th Parallel Wealth Management”) brochure. You should have received a copy of that brochure. Please contact Lucas Wennersten if you did not receive 49th Parallel Wealth Management’s brochure or if you have any questions about the contents of this supplement.

Additional information about Lucas Wennersten is available on the SEC’s website at [www.adviserinfo.sec.gov](http://www.adviserinfo.sec.gov) which can be found using the identification number 5413961.

## Item 2: Educational Background and Business Experience

### **Lucas Wennersten, CFA®, CFP®**

Born: 1981

#### **Educational Background**

- 2004, Bachelors in Business Administration, Business Economics, University of San Diego

#### **Business Experience**

- 03/2026 - Present, 49th Parallel Wealth Management ULC, Owner/Primary Portfolio Manager
- 07/2024 - Present, 49th Parallel Wealth Management, LLC, Member/CCO/IAR
- 01/2019 - 08/2024, Cardinal Point Wealth Management, Senior Financial Planner and Relationship Manager
- 02/2014 - 01/2019, Transition Financial Advisors Group, Inc, Investment Adviser Representative

#### **Professional Designation(s)**

##### **CFP® (Certified Financial Planner):**

Lucas Wennersten is certified for financial planning services in the United States by Certified Financial Planner Board of Standards, Inc. ("CFP Board"). Therefore, Lucas Wennersten may refer to himself as a CERTIFIED FINANCIAL PLANNER™ professional or a CFP® professional, and Lucas Wennersten may use these and CFP Board's other certification marks (the "CFP Board Certification Marks"). The CFP® certification is voluntary. No federal or state law or regulation requires financial planners to hold the CFP® certification. You may find more information about the CFP® certification at [www.cfp.net](http://www.cfp.net).

CFP® professionals have met CFP Board's high standards for education, examination, experience, and ethics. To become a CFP® professional, an individual must fulfill the following requirements:

- Education – Earn a bachelor's degree or higher from an accredited college or university and complete CFP Board-approved coursework at a college or university through a CFP Board Registered Program. The coursework covers the financial planning subject areas CFP Board has determined are necessary for the competent and professional delivery of financial planning services, as well as a comprehensive financial plan development capstone course. A candidate may satisfy some of the coursework requirements through other qualifying credentials.
- Examination – Pass the comprehensive CFP® Certification Examination. The examination is designed to assess an individual's ability to integrate and apply a broad base of financial planning knowledge in the context of real-life financial planning situations.
- Experience – Complete 6,000 hours of professional experience related to the personal financial planning process, or 4,000 hours of apprenticeship experience that meets additional requirements.
- Ethics – Satisfy the Fitness Standards for Candidates for CFP® Certification and Former CFP® Professionals Seeking Reinstatement and agree to be bound by CFP Board's Code of Ethics and Standards of Conduct ("Code and Standards"), which sets forth the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements to remain certified and maintain the right to continue to use the CFP Board Certification Marks:

- Ethics – Commit to complying with CFP Board's Code and Standards. This includes a commitment to CFP Board, as part of the certification, to act as a fiduciary, and therefore, act in the best interests of the client, at all times when providing financial advice and financial planning. CFP Board may sanction a CFP® professional who does not abide by this commitment, but CFP Board does not guarantee a CFP® professional's services. A client who seeks a similar commitment should obtain a written engagement that includes a fiduciary obligation to the client.

- Continuing Education – Complete 30 hours of continuing education every two years to maintain competence, demonstrate specified levels of knowledge, skills, and abilities, and keep up with developments in financial planning. Two of the hours must address the Code and Standards.

**Chartered Financial Analyst (CFA®):** The CFA charter is a graduate-level professional designation established in 1962 and awarded by CFA Institute. To earn the CFA charter, candidates must pass three sequential, six-hour examinations over two to four years. The three levels of the CFA Program test a wide range of investment topics, including ethical and professional standards, fixed-income analysis, alternative, and derivative investments, and portfolio management and wealth planning. In addition, CFA charterholders must have at least four years of acceptable professional experience in the investment decision-making process and must commit to abide by, and annually reaffirm, their adherence to the CFA Institute Code of Ethics and Standards of Professional Conduct.

### Item 3: Disciplinary Information

Lucas Wennersten has never been involved in an arbitration claim of any kind or been found liable in a civil, self-regulatory organization, or administrative proceeding.

### Item 4: Other Business Activities

49th Parallel Wealth Management, LLC is affiliated with 49th Parallel Wealth Management ULC through common ownership and control by Lucas Wennersten. 49th Parallel Wealth Management ULC (NRD#81990) is a Portfolio Manager regulated by the British Columbia Securities Commission and other provincial regulators. 49th Parallel Wealth Management LLC and 49th Parallel Wealth Management ULC may provide advisory services to one or more common clients. Each entity maintains a separate agreement with each client outlining the services provided as well as the terms and payment structure negotiated. Due to the affiliation of the two entities, 49th Parallel Wealth Management LLC has an incentive to recommend the services of its affiliate over the services of nonaffiliated firms. As such, clients are informed that due to this arrangement, there is a conflict of interest. 49th Parallel Wealth Management LLC upholds its fiduciary duty and only recommends advisers that it believes will act in the client's best interest.

### Item 5: Additional Compensation
